I note that I can withdraw my permission, in writing, at any time.

## Section 2. Data Protection

I agree to the ATC recording and processing information about my son/daughter/ward on MOD systems. I understand that this information will be used only for the purposes of administering his membership of the ATC and my consent is conditional upon the ATC complying with its duties and obligations under the Data Protection Act.

This information will be held and processed for the following purposes:

All images are taken and stored within the limitations of the Data Protection Act. Home addresses are never released by the ATC to the media.

## Section 5. Flying

As a Cadet, your son/daughter/ward may have the opportunity to fly as a passenger in a military-operated aircraft, ranging from commercial passenger types to helicopters to front line operational aircraft ('fast jet'). On such sorties they may be invited to handle the flying controls, under supervision. They will have been thoroughly briefed and appropriately equipped (eg with a flying suit, helmet and parachute for some aircraft) before they go flying. In due course your son/daughter/ward may apply and be selected to undertake formal flying instruction and be trained to fly solo. Medical fitness of cadets is important for the safety of aircraft and the crew and it could be unsafe for some to fly in certain aircraft types. All pilots and instructors are required to meet stringent training and medical standards and are appropriately supervised. You should be aware that in some cases the gliding instructor could be an appropriately qualified cadet. Whilst the MOD does all it can to reduce the risks associated with flying to 'as low as reasonably practicable', and your son/daughter/ward will be carefully supervised, there is a residual risk to any flying activity. Whilst accidents are rare, they can happen and may have fatal results.

### Consent to Flying/Gliding

I Consent to my son/daughter/ward flying in the following categories of aircraft:

British and NATO military passenger transport aircraft and helicopters

Yes No

 

Other types of British and USAF military aircraft Including high performance jets

## Section 4. Participation in Activities

I Consent do not consent to my son/daughter/ward participating in strenuous physical activities such as fieldcraft, adventure training and leadership exercises. These activities are designed to stretch individuals outside their comfort zone, under controlled conditions.

## Parental / Guardian Agreement

I give my approval, as qualified in the consents above for my son/daughter/ward to participate in ATC activities.

I consent do not consent to the Officer in Charge or his appointed representative to act as the person responsible should my son/daughter/ward have to undergo medical treatment including any emergency operation to which I am unable to physically give consent.

I have completed the Medical information overleaf advising the Contingent of medical conditions which could impact on the activities in which my Son/Daughter/Ward can participate within the ATC and control measures which may help to mitigate any symptoms. I will inform the Section Commander if there is any change to the cadet's medical condition(s) during their involvement with the ATC.
